

POSITION DESCRIPTION

Project Geologist or Technician – GIS Specialization

DATE POSTED: April 23, 2021
CLOSING DATE: May 4, 2021
TITLE: Project Geologist – GIS Specialization or
Technologist - GIS Specialization
LOCATION: Vancouver, BC
REPORTS TO: Exploration Supervisor
DIRECT REPORTS: None
JOB FAMILY: Exploration

INTRODUCTION

Sabina Gold & Silver Corp. (Sabina) is a Canadian precious metals company on track to become a mid-tier gold producer. The Company has a portfolio of properties in Canada at different stages of development with a focus on our flagship project, the Back River Gold Project, located in Nunavut. Through the advancement of the Project, Sabina is evolving from a successful exploration company to a developer and future gold producer.

The Project Geologist or Technician – GIS Specialization role will be a member of the Exploration team for Sabina Gold & Silver Corp. The successful candidate will support the Exploration team and additional company departments in a GIS, Geoscience, and Lands Administration capacity. Tasks and responsibilities will be focused on gold exploration, department administration and a portion of project development support. The ideal candidate will have a passion for exploration and a drive to bring innovation to the mining industry.

ESSENTIAL DUTIES:

In this position the Project Geologist or Technologist – GIS Specialization will:

- Lead and complete GIS or related software tasks to generate, transpose, digitize, manipulate and/or rectify spatial geological, developmental, environmental and administrative data on a daily basis for the company.
- Prepare maps, cross sections, 3-D models for the purposes of technical writing, exploration targeting, and business development.
- Build and manage GIS databases and effectively set-up version control protocols for mapping and GIS data.
- GIS and graphic support in departmental presentations, technical reports, and memos.
- GIS and graphic support in corporate marketing, news dissemination and regulatory reporting.
- Management, administration and monitoring of company land tenure.
- Contribute to the technical team in planning and execution of field work components, including geological mapping, sampling, and core logging, etc.
- Management of field data collection devices including GIS, safety and drone survey support items.
- Management of company software applications including GIS, 3D modelling, and others.
- Comply with internal policies and procedures.

POSITION DESCRIPTION

Project Geologist or Technician – GIS Specialization

WORKING PREMISES:

The position is based in Vancouver, British Columbia. Up to 20% of this role may require work related travel for completion of activities at the company's Back River Project, located in Nunavut. Allowances in working from home may be incorporated under company COVID-19 policies and procedures.

TRAINING & EXPERIENCE:

The successful candidate will be/have:

- Self-starter, continuous learner, and a passion for innovation in geoscience related to mineral exploration.
- A college or university degree, or equivalent experience, in earth sciences with a specialization in Geoscience and/or GIS.
- Two years of related experience within a geoscience and/or GIS role.
- Experienced knowledge of the following software is essential: ESRI ArcMap, Office 365
- Experienced knowledge of software and tools will be considered an asset: Leapfrog, ESRI ArcGIS Online, AutoCAD, and drones and GPS equipment.
- Eligibility as a Professional Geoscientist, Technologist or member in training.
- Organized with strong time management skills.
- Ability to work independently as well as collaboratively in a multi-disciplinary, cross-cultural team.
- A strong problem-solving orientation.
- Excellent oral and written communication skills.
- A strong attention to detail.
- Capacity for strategic thinking to support corporate messaging to various stakeholders, external personnel, and regulatory agencies.
- Work safely and contribute to safe practices of the Sabina team and contractors.
- Willingness to travel (approximately 20%).
